CONTENTS

No. 1. September, 1946

Palmar Skin Resistance as a Measure of Physical Fitness. *Edwin R. Elbel and R. R. Ronkin* 1
Studies on the Nutritive Value of Lactose and Galactose with the Single-Food Choice Method. *Benjamin H. Ershoff* 13
Relation of Gas Tension and Hydrostatic Pressure to Intravascular Bubble Formation. *William D. McElroy and Arthur H. Whiteley* 19
The Oxygen Consumption and Mechanical Efficiency of the Heart Before and During Heart Failure. *W. Wise, J. Meyer, L. N. Katz, B. Lendrum and K. Jochim* 28
Absence of Rapid Deterioration in Moderately Active Young Men on a Restricted Intake of B-Complex Vitamins and Animal Protein. *Robert C. Cogswell, George H. Berryman, Charles R. Henderson, Charles W. Denko and Jane R. Spinella* 39
The Distribution of Water and Fat in the Skin and Muscle of the Dog During Chronic and Acute Dehydration. *Benjamin de Boer* 49
Arterial Oxygen Pressure During Pure O_2 Breathing. *J. C. Fasciolo and H. Chiodi* 54
Biochemical Changes in the Blood of Rats After Reapplication of Limb Tourniquets. *Roland K. Meyer, W. H. McShan and Arthur Goldman* 66
Evidence that the Major Portion of the Gastric Potential Originates Between the Submucosa and Mucosa. *Warren S. Rehm* 69
A Comparative Study of the Effects of Oxygen Lack on Peripheral Nerve. *Ernest B. Wright* 78
Excitation and Inhibition of Phrenic Motoneurones by Inflation of the Lungs. *M. G. Larrabee and G. C. Knowlton* 90
A Unitary Analysis of Pulmonary Volume Receptors. *G. C. Knowlton and M. G. Larrabee* 100
The Metabolic Reduction and Nephrotoxic Action of Tetrathionate in Relation to a Possible Interaction with Sulfhydryl Compounds. *Alfred Gilman, Frederick S. Philips, Ethol S. Koelle, Roberta P. Allen and Ellen St. John* 115
Electrical Manifestations of the Cerebellum and Cerebral Cortex Following DDT Administration in Cats and Monkeys. *Frederick Crescitelli and Alfred Gilman* 127
Bicarbonate and the Renal Regulation of Acid Base Balance. *R. F. Pitts and W. D. Lotspeich* 138
The Standardization of Hemorrhagic Shock in the Rat: Observations on the Effects of Transfusions of Whole Blood and Some Blood Substitutes. *Marion S. Sayers, George Sayers and C. N. H. Long* 155
Urea Synthesis from Amino Acids During Hemorrhagic Shock in the Nephrectomized Rat. *Frank L. Engel and Mildred G. Engel* 165
Amino Nitrogen in Liver and Muscle of Rats in Shock After Hemorrhage. *Jane A. Russell and C. N. H. Long* 175
The Influence of Feeding on the Effects of Hepatic Anoxia on the Respiration of Liver Slices in Vitro. *Alfred E. Wilhelmi, Mildred G. Engel and C. N. H. Long* 181
On the Determination of the Physiologically Effective Pressures of Oxygen and Carbon Dioxide in Alveolar Air. *R. L. Riley, J. L. Lilienthal, Jr., D. D. Proemmel and R. E. Franke* 191
An Experimental Analysis in Man of the Oxygen Pressure Gradient from Alveolar Air to Arterial Blood During Rest and Exercise at Sea Level and at Altitude. *J. L. Lilienthal, Jr., R. L. Riley, D. D. Proemmel and R. E. Franke* 199
Carbon Dioxide Production of Humans at Sea Level and at Low Barometric Pressures. *William E. Berg and Sherburne F. Cook* 217
The Effect of Adrenalectomy in Rats on Urinary Non-Protein Nitrogen During Forced-Feeding and During Fasting. *Dwight J. Ingle and Elizabeth A. Oberle* 222

The Effect of Fasting upon the Tolerance of Normal Rats to a High Carbohydrate Diet Administered by Stomach Tube. *Helen A. Winter* ... 228
The Influence of Thiamine on the Action of Acetylcholine on Muscle. *D. P. Sadhu* ... 233

No. 2. October, 1946

The Permeability of Blood Capillary Sprouts and Newly Formed Blood Capillaries as Compared to That of Older Blood Capillaries. *Richard G. Abell* ... 237
The Nature of Intraperitoneal and Intrarectal Pressures. *R. F. Rushmer* ... 242
Desensitization of Mice to Placental Toxin. *Charles L. Schneider* ... 250
Placental Toxin: Inactivation and Tolerance During Pregnancy. *Charles L. Schneider* ... 255
Changes in Arterial and Venous Blood Pressure and Flow Distal to a Cuff Inflated on the Human Arm. *Robert W. Wilkins and Stanley E. Bradley* ... 260
Studies of Right and Left Ventricular Activity During Hemorrhagic Hypotension and Shock. *David F. Opdyke and Carl J. Wiggers* ... 270
Studies on the Biological Effect of High Frequency Radio Waves (Radar). *Richard H. Follis, Jr.* ... 281
The Effect of Time of Day on the Metabolic Rate of Albino Mice; a Manometric Method. *Geraldine J. Fuhrman, Edward D. McLin and Margaret L. Turner* ... 284
The General Tolerance and Cardiovascular Responses of Animals to Explosive Decompression. *W. V. Whitehorn, Allen Lein and Abraham Edelmann* ... 289
The Assay of Nephrosclerosis Producing Anterior Pituitary Preparations. *Eleanor C. Hay and Paulette Seguin* ... 299
Movements of Body Water in Response to Acute Blood Loss. *T. S. Danowski, J. R. Elkinton and A. W. Winkler* ... 306
A Study on the Pathway from the Medial Geniculate Body to the Acoustic Cortex in the Dog. *Archie R. Tunturi* ... 311
The Relation of Temperature and the Thyroid to Mammalian Reproductive Physiology. *Ralph Bogart and Dennis T. Mayer* ... 320
Hemodynamics in Pulmonary Irritant Poisoning. *H. M. Patt, J. M. Tobias, M. N. Swift, S. Postel and R. W. Gerard* ... 329
Sodium Chloride as an Adjunct to a Diet of Whole Wheat and Whole Milk. *H. L. Campbell* ... 340
Effect of Pentothal Anesthesia on Canine Cerebral Cortex. *E. Homburger, W. A. Himwich, B. Etsten, G. York, R. Maresca and H. E. Himwich* ... 343
Lipotropic Action of Lipocaic: A Study of the Effect of Oral and Parenteral Lipocaic and Oral Inositol on the Dietary Fatty Liver of the White Rat. *Mary Lou Eilert and Lester R. Dragstedt* ... 346
Formulation of the Principal Factors Affecting the Rate of Uptake of Carbon Monoxide by Man. *Nello Pace, William V. Consolazio, William A. White, Jr. and Albert R. Behnke* ... 352
Permeability of the Placenta of the Guinea Pig to Inorganic Phosphate and Its Relation to Fetal Growth. *Walter S. Wilde, Dean B. Cowie and Louis B. Flexner* ... 360
Decline in the Rates of Sweating of Men Working in Severe Heat. *S. D. Gerking and Sid Robinson* ... 370
The Effect of Necrosin on the Blood Sugar Level. *Valy Menkin* ... 379
Apparent Curare Effect of Substances that Decrease Acetylcholine Synthesis. *Clara Torda and Harold G. Wolff* ... 384
Sweat Gland Activity and Changing Patterns of Sweat Secretion on the Skin Surface. *Walter C. Randall* ... 391
Water and Salt Exchange During Chronic and Acute Dehydration in the Dog. *Benjamin De Boer* ... 399
Hyperchromic Anemia Produced by Choline or Acetylcholine and the Induced Remission of Both by Folic Acid or Liver Injection. The Probable Mechanism of Action of Liver and Folic Acid in Treatment of Anemia. *John Emerson Davis* ... 404

The Recovery of Injected Dye and the Yield of Blood Cells by Perfusion of the Cardiovascular System in Barbitalized Dogs. *Hampden C. Lawson, Dina B. Rappaport and Antonio Ramirez* 412
The Influence of Caloric Restriction on Plasma Protein, Hemoglobin and Hematocrit Values in the Rat. *Zelma Baker Miller, Marian Friedman and Harry J. Deuel, Jr.*. 423
The Effect of Methyl Xanthines on the Formation of Urea in Rabbits. *Frederick Bernheim and Mary L. C. Bernheim* 428

No. 3. November, 1946

Changes in Blood Acid-Base Balance during Asphyxia and Resuscitation. *Fred S. Grodins, Allen Lein and Harry F. Adler* 433
The Effects of Hemorrhage on Tissue Metabolites. *G. A. LePage* 446
Effect of Bilateral Destruction of Three Lateral Cerebral Cortical Areas on Correct Conditioned Differential Responses from General Cutaneous Stimulation. *William F. Allen* 454
The Metabolism of Histamine and Adenylic Compounds in the Embryo. *Georges A. Misrahy* 462
The Influence of Steroids on the Restoration of Hypertension in Hypophysectomized Rats. *Ernest W. Page, Eric Ogden and Evelyn Anderson* 471
The Electrocardiogram of Rats on Vitamin E Deficiency. *Charles R. Ensor* 477
Factors Governing the Rate of Excretion of Titratable Acid in the Dog. *R. F. Pitts and W. D. Lotspeich* 481
The Simultaneous Transport of T-1824 and Radioactive Red Cells Through the Heart and Lungs. *Philip Dow, P. F. Hahn and W. F. Hamilton* 493
Further Observations on the Distribution at the Level of the Pons of Descending Nerve Fibers Subserving Heat Regulating Functions. *Allen D. Keller and J. Reese Blair* 500
The Effect of Various Ions on the Anaerobic Glycolysis of Rat Liver in Vitro. *Charles O. Warren and Franklin G. Ebaugh, Jr.* 509
The Validity of Internal Jugular Venous Blood in Studies of Cerebral Metabolism and Blood Flow in Man. *Eugene B. Ferris, George L. Engel, Charles D. Stevens and Myrtle Logan* 517
The Relationship of the Parathyroid Glands to the Action of Estrogen on Bone. *Burton L. Baker and Joseph H. Leek* 522
The Effect of Dinitrophenol on the Oxygen Consumption of Albino Mice at Graded Levels of Environmental Temperature. *Geraldine J. Fuhrman and F. W. Weymouth* 527
Tolerance of Adult Chickens to Hypothermia. *Paul D. Sturkie* 531
The Relation of Renal Blood Flow to Effective Arterial Pressure in the Intact Kidney of the Dog. *Ewald E. Selkurt* 537
A Study of Nerve Degeneration and Regeneration. *Joseph Erlanger and Gordon M. Schoepfle* 550
Relative Potency of Certain Synthetic Estrogens when Administered Orally to Chicks. *S. S. Munro and Igor L. Kosin* 582
Standardized Hemorrhagic Shock in the Guinea Pig. *Christiane Dosne de Pasqualini* .. 591
The Effect of Ascorbic Acid on Hemorrhagic Shock in the Guinea Pig. *Christiane Dosne de Pasqualini* 598

No. 4. December, 1946

The Relation between Alveolar Carbon Dioxide Tension and Susceptibility to Decompression Sickness. *Robert Hodes and Martin G. Larrabee* 603
The Effect of Anoxic Anoxia on Urine Secretion in Anesthetized Dogs. *J. Clifford Stickney, David W. Northup and Edward J. Van Liere* 616

The Measurement of Reduction Time of Blood in the Capillaries of the Skin. *George B. Ray* 622
Factors Influencing Reduction Time of Blood in the Capillaries of the Skin. *George B. Ray, Louise H. Ray and J. Raymond Johnson* 630
The Change in Reduction Time of Blood after Breath-Holding as a Criterion of Physiological Fitness. *George B. Ray, J. Raymond Johnson and Louise H. Ray* 636
Experimental Hypertension in the Dog. *Arthur Grollman* 647
The Function of the Abdominal Chemoreceptors of the Rat and Mouse. *W. Henry Hollinshead* 654
Circulatory and Respiratory Reflexes in the Rabbit during Tipping. *Ruth E. Conklin* 661
Asphyxial Depolarisation in the Spinal Cord. *A. Van Harreveld* 669
Limb Blood Flow and Vascular Resistance Changes in Dogs during Hemorrhagic Hypotension and Shock. *R. W. Eckstein, I. M. Liebow and C. J. Wiggers* 685
A Study of the Effect of Limitation of Food Intake and the Method of Feeding on the Rate of Weight Gain during Hypothalamic Obesity in the Albino Rat. *Chandler McCuskey Brooks and E. F. Lambert* 695
The Relative Importance of Changes in Activity in the Development of Experimentally Produced Obesity in the Rat. *Chandler McC. Brooks* 708
A Study of the Food-Feces Ratios and of the Oxygen Consumption of Albino Rats during Various Phases of Experimentally Produced Obesity. *Chandler McC. Brooks, David N. Marine and E. F. Lambert* 717
A Study of the Respiratory Quotient in Experimental Hypothalamic Obesity. *Chandler McC. Brooks* 727
A Study of the Effect of Hypothalamic Lesions on the Eating Habits of the Albino Rat. *Chandler McC. Brooks, Richard A. Lockwood and Milton L. Wiggins* 735
The Effects of Insulin on the Increase in Liver Fat Produced by Anterior Pituitary Extracts. *James Campbell* 742
Index 749
